

INSTRUCTIONS FOR THE USE AND CARE OF YOUR
METRO DATA-VAC/2 AND METRO DATA-VAC/3

ATTENTION

DATA-VAC/2, MODEL MDV-2 AND DATA-VAC/3, MODEL MDV-3 HAS TONER PICK-UP CAPABILITIES WHEN USED WITH TONER FILTERS AND TONER BAGS. CAUTION: DO NOT USE DATA-VAC/2 OR DATA-VAC/3 FOR TONER PICK-UP WITHOUT SPECIAL FILTRATION PARTS.

1. Start appliance by pushing the toggle switch either left or right. The two speed switch controls the power level of the DATA VAC/3. The off position is in the middle.
2. HOSE: When use of hose is desired, connect to suction end of the DATA-VAC for cleaning purposes, to exhaust end for blowing purposes.
3. EXTENSION WANDS: Reach those inaccessible spots. Eliminate bending to clean low areas and under furniture...stretching to reach high areas.
4. "PIK-ALL" NOZZLE: Cleans desks, chairs, filters, upholstery, furniture. Can also be used as "air defuser" by placing on exhaust end.
5. CREVICE TOOL: Cleans those hard-to-reach tight spots. Can be used for vacuuming and blowing purposes.
6. POWERIZER/AIR MAXIMIZER: This tapered accessory concentrates and maximizes air flow for both vacuuming and blowing purposes.
7. DUST BRUSH: The perfect tool to clean keyboards, terminals, printers, cables and other peripherals.

AIR PINPOINTER

AIR PINPOINTER: Narrows air flow down to mere millimeters for blowing into sensitive, hard-to-reach areas - between keys, printer, disc drive, etc. Exclusive CFM power control on hose reduces air flow for both vacuuming and blowing.

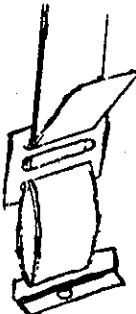

CAUTION

1. If your DATA-VAC has suction but does not clean when hose is attached, remove hose from suction end and place onto blower end. Blow out the hose...sometimes it might be clogged. Empty cloth after each cleaning.
2. Foam filter should be replaced three times a year.

SERVICE

Normal maintenance, such as motor brush replacement, can be made at your local service shop. Motor brush life is approximately 500 hours. Brushes should be checked between 200 to 250 hour intervals.

Filter life is 6 months unless used continually in extremely dirty conditions.

BUCKLE & STRAP ASSEMBLY

1. Loop strap through buckle as shown.
2. Extend length of strap through buckle approx. 12 inches.
3. Again loop the end of the strap back through the buckle slots as shown to complete the assembly.
4. Repeat these steps at opposite end.
5. Adjust strap to desired length.

**ONE YEAR LIMITED PARTS WARRANTY
TWO YEAR LIMITED MOTOR WARRANTY**

Guarantee

This appliance is guaranteed to be free from defects in workmanship and material for one year from date of purchase. (See Registry Card) The motor is guaranteed for two years.

The Company agrees to repair or replace any parts, under this guarantee, which may become defective under normal and proper use, and provided the apparatus is used on the voltage circuits marked on the name plate. The Company will repair or replace defective parts under this guarantee, if returned to the factory or authorized service station, freight or postage prepaid. Please include \$7.50 to cover return mailing, insurance and handling. Correction of such defects by repair or replacement shall constitute a fulfillment of all its obligations with respect to the apparatus sold hereunder.

IMPORTANT: Do not tamper with or attempt to take this appliance apart. Such action will void this guarantee.

DATA-VAC

Computer Maintenance Guide

NOW, SOLVE COMPUTER/OFFICE EQUIPMENT DUST PROBLEMS BEFORE THEY OCCUR.

HOW? WITH METRO DATA-VAC COMPUTER/HOME OFFICE EQUIPMENT MAINTENANCE SYSTEMS.

DATA-VAC GETS INTO EVERY NOOK AND CRANNY OF COMPUTERS, PRINTERS, ELECTRONIC OFFICE EQUIPMENT TO VACUUM OR BLOW AWAY ANY/ALL DUST, PAPER, DEBRIS ETC.

AND, WITH DATA-VAC/2 AND DATA-VAC/3'S TONER FILTER SYSTEM, YOU CAN PICK-UP TONER SPILLS FROM LASER PRINTERS AND COPIERS. LASER PRINTER AND COPIER MANUFACTURERS PRESCRIBE REGULAR MAINTENANCE FOR CLEANER, CLEARER DOCUMENTS.

METRO LASER MAINTENANCE SCHEDULE

1. LASER PRINTERS SHOULD BE VACUUMED AT LEAST ONCE A MONTH.
2. TONER TENDS TO MIGRATE AND GRAVITATE INTO ACCESSIBLE AREAS CAUSING DEFICIENCIES IN PRINTING. PROPER MAINTENANCE INSURES AND INCREASES LASER PRINTER LIFE SPAN.
3. RECHARGED LASER TONER CARTRIDGES HAVE A TENDENCY TO LEAK MORE.
4. INSTALLATION AND REMOVAL OF TONER CARTRIDGE CAN RESULT IN TONER LEAKAGE THROUGH CARTRIDGE SEAL.
5. VACUUM IN THE AREA OF THE PRINTER CORONA WITHOUT MAKING CONTACT WITH SAME.
6. VACUUM AS CLOSE AS POSSIBLE WITHOUT TOUCHING COMPONENTS.
7. VACUUMING WITH METRO DATA-VAC/2 (MODEL MDV-2) OR METRO DATA-VAC/3 (MODEL MDV-3), UTILIZING OPTIONAL TONER STARTER KITS (MODEL TSK-1) INSURES ENVIRONMENTAL SAFETY. METRO DATA-VAC TRAPS AND REMOVES POLLUTANTS, RECYCLES THE AIR WITHOUT HARMFUL CONTAMINANTS EXPELLING INTO THE ATMOSPHERE.
8. FINALLY, METRO DATA-VAC IS DESIGNED TO PROVIDE MORE ACCURATE CLEANING.

DATA-VAC SAVES COSTLY SERVICE CALLS AND DOWNTIME.
